1. Access AP Easy at [www.petersonlab.com](http://www.petersonlab.com) or open the site directly at <https://orv.agillaire.com/orv/>. Remember to add them to your favorites!
2. Select the “Results” tab

3. Click on the Agillaire URL

4. You will see the following screen:

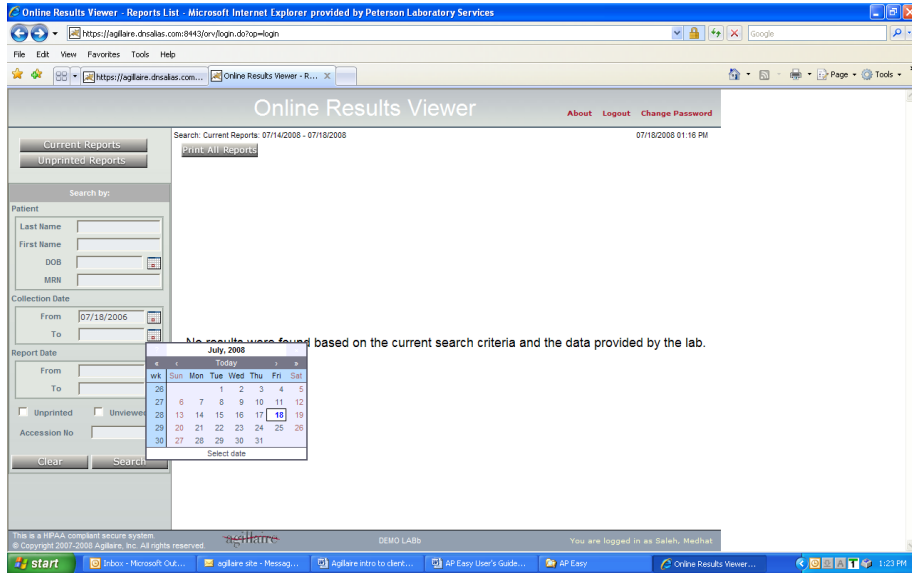

5. Enter your assigned user name and password. **COOL TRICK:** The system does not remember password history. When your account is flagged for password change every 90 days, choose a new password (temporarily), log out, log back in and change it to your former password if you wish.

**TIP:** Demo data may be viewed by entering "PCL/peterson"

6. The main search page will display as follows:

7. Enter the desired report date range, and select "Search." Reports will display to the right.
8. From this page you can view and print a patient report, go to "about" and view application features, logout and/or change your password.

based on the current search criteria and the data provided by the lab.

- The "V", "P", and "X" icons indicate whether a report has been viewed, printed, and/or purged.
- The new "H" History button displays a report's history, including when it was transmitted to the ORV system, each time it was viewed and/or printed, and when it was purged from the system (reports older than 90 days are purged).
